

POWERED HAULER MOVES BIG LOADS WITH EASE!

The DR® POWERWAGON is purpose-built for heavy hauling. The PRO model effortlessly hauls up to 800 pounds of firewood, gravel, topsoil, building materials and more. You just have to walk along behind and steer. Powered wheels take the machine up hills and over rough terrain, even with a full load. And a rear caster wheel pivots 360 degrees, for easy handling. So stop struggling to move heavy loads...and start hauling with the powerful DR® POWERWAGON.

Unload your POWERWAGON with the push of a button!*

The powerful electric lift raises the dump bed, to drop loads of gravel, topsoil, firewood and more right where you want them.

"To my amazement, the DR Power Grader FOUND gravel in my driveway. When I was finished you would have thought we ordered new gravel. I am VERY impressed with the Power Grader."

—CJ Stringer, Edinburgh, IN

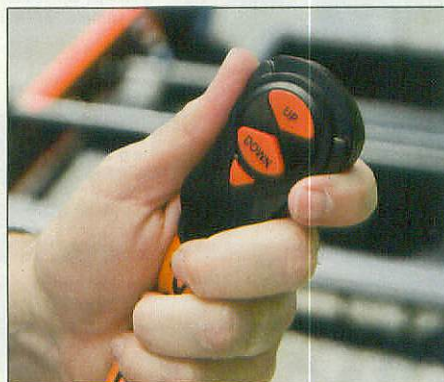

SEE IT IN ACTION!
DRpower.com/video

MAKE YOUR DRIVEWAY SMOOTH AGAIN! NO MORE POTHOLE AND RUTS.

- Tows behind a riding mower, UTV, ATV or tractor
- Loosens the hardest, most compacted materials
- Saves wear and tear on your car or truck

Imagine always having a smooth and beautiful driveway. No ruts or potholes. No washouts. And no unsightly weeds peeking through. You can have it...when you own a DR® POWER GRADER.

The DR® POWER GRADER is the do-it-yourself solution to maintaining gravel, dirt, sand or any unpaved driveway or road. It's designed specifically to fill in holes, smooth out bumps and washboard and make your driveway like new again. In most cases, there's no need to bring in new material. The POWER GRADER takes what's there and redistributes it evenly, for a beautiful finish. Now you can enjoy a smooth driveway that looks great and is easy on you and your vehicle.

WIRELESS REMOTE CONTROL!

This controller transmits a radio signal to a receiver on the POWER GRADER's actuator, enabling you to adjust the height of the scarifying teeth with the touch of a button. There's no connecting cable. The controller is so light (just 1 oz.), you can wear it on a lanyard around your neck for easy accessibility.

VERSA-PRO™: MOW LIKE A PRO... AND GO WHERE THE OTHER Zs CAN'T!

- Provides beautiful, professional-looking results *fast*
- Converts to a walk-behind mower in seconds
- Mows slopes, under trees, where other riders can't go

With up to 22 HP, a 52"-wide cut, and a top speed of 13 mph, the DR® VERSA-PRO™ Z-Mower makes fast work of big lawns, and leaves behind a beautifully clean cut.

Responsive, two-lever hydrostatic controls enable you to maneuver quickly around obstacles and get in and out of irregular spaces with ease. Best of all, if you have slopes or pond edges that are unsafe for a rider, the VERSA-PRO™ Z-Mower converts to a walk-behind mower in seconds and goes just about anywhere. It's the only z-steer mower that can mow all the areas of your big lawn!

- Collect and shred leaves, grass clippings, pine needles, pine cones, nuts, twigs and more
- Chip branches up to 2" thick
- Make your yard and lawn look better than ever

Hop on your riding tractor with the DR® LEAF and LAWN VACUUM attached and vacuum a winter's worth of twigs, leaves, pine cones and other debris from your yard. Come summer, you can collect grass clippings while you mow better than any other method available. And when the leaves fall next autumn, you'll collect and shred them with ride-on ease...while your neighbors spend their weekends raking.

OUR SHARK-TEETH™ IMPELLER IS SO STRONG, IT HAS A LIFETIME WARRANTY Made of solid steel, our impeller is guaranteed against bending or breaking for as long as you own your LEAF and LAWN VACUUM.

10-TO-1 REDUCTION TURNS LEAVES INTO MULCH

Most everything you collect in the LEAF and LAWN VACUUM — leaves, grass clippings, pine cones, twigs and more — is shredded into a fine mulch. This mulch breaks down quickly into nutrient-rich plant food. Or you can bag it for easy disposal...in far fewer bags than ever before.

NO MORE BRUSH PILES! CHIP BRANCHES UP TO 2" THICK with the built-in chipper available on select models.

PROTECTED BY A 2-YEAR WARRANTY against defects in materials and workmanship (in residential use).

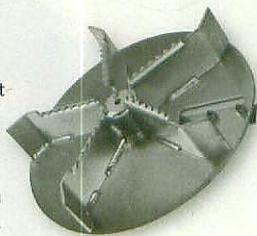

PATENTED DUST REDUCTION SYSTEM!

Only the DR® LEAF and LAWN VACUUM has a patented Centrifugal Separator™ that draws materials into the collector with centrifugal force and expels the cleaned air with little or no dust! Other yard vacs that use cloth collection bags, expel clouds of allergy-causing dust through their bags.

LIFETIME WARRANTY IMPELLER!

Only the DR® LEAF and LAWN VACUUM offers a lifetime warranty on its impeller. It is half-inch thick steel -- so strong, it's guaranteed not to bend or break. In contrast, some lawn vacs with rubber impellers offer you no warranty protection if your machine ingests even a small rock.

SEE IT IN ACTION!
DRpower.com/video

AVAILABLE FOR USE WITH ZERO-TURN MOWERS (call for details).

Choose either the 9.00 PREMIER or a COMMERCIAL model for chipping branches up to 2" thick. All models feature a tilting collection box, for fast and easy unloading.

TOW-BEHIND Models

COMMERCIAL MODELS

The model of choice for really big lawns, professional use and for those who simply want the best. Combines extra capacity — for collecting more leaves before unloading — with a built-in chipper, your choice of powerful 9.00 or 13.74 ft. lbs. torque engines with cast-iron cylinder sleeves, and a pivoting pin hitch for excellent handling.

13.74 SUBARU/ROBIN: THE BEST ENGINE WE'VE EVER OFFERED!

- First air-cooled engine in the world to use auto-style chain-driven overhead cam technology.
- Steel cam and gear replace rubber timing belts and plastic gears found in other engines, for longer engine life.
- Overhead cam design and mechanical decompression system result in less force to pull-start this engine
- Plus...oversized air and fuel filters...cast-iron cylinder sleeves...and superior lubrication.

#20082 2-YEAR EXTENDED WARRANTY ~~\$159~~ **NOW FREE!**

PREMIER MODELS

More power, more debris reduction, and more load capacity than any other homeowner vacuum in its price range. Pivoting wheels and a fixed hitch enable the vacuum unit to follow wherever you steer your rider, even when backing up.

VACUUM LEAVES FAST ...WHILE YOU WALK!

For your neatest, best-looking yard ever, get behind the DR® LEAF and LAWN VACUUM. With gale-force suction, this powerful machine cleans your lawn of leaves, grass clippings, pine cones, pine needles, most nuts and more...while you move forward at a comfortable walking speed.

In highly-landscaped areas, the Walk-Behind LEAF and LAWN VACUUM gets up close to flower beds and shrubs without risk of damaging valuable plants. You can quickly collect debris along foundations, stone walls and fences. Or make quick turns around trees. And at just 28" wide you can even squeeze through garden gates, for complete property cleanup. So throw away your rake. And enjoy the speed and ease of vacuum cleaning.

Item #LWN125E

- Mow a 42" wide path
- Speed ahead on wide-open areas, maneuver in tight spots too
- Multiple speeds for varying terrain

At the crossroads of performance and versatility is the DR® WIDE-CUT LAWN MOWER. This is the type of mower the pros use to cover every inch of lawn fast. Mowing a 42" wide path, the WIDE-CUT will mow a 1/2 acre lawn in less than 30 minutes. That's twice as fast as an ordinary 21" walk-behind mower. And unlike most riding mowers, the WIDE-CUT can handle your entire lawn — from large wide open areas to hills, close quarters, even under trees and shrubs. Backed by a bumper-to-bumper two year warranty, the WIDE-CUT LAWN MOWER matches pro-quality speed and performance with the reliability you expect from DR equipment.

12.5 HP WIDE-CUT MOWER *Electric-Start* **\$1,399** List \$1,999

CHIP BIG BRANCHES AND SHRED UGLY DEBRIS, TOO.

Just like our chippers, DR® CHIPPER/SHREDDERS instantly turn tree branches up to 4-1/2" thick into bushels of beautiful wood chip mulch. But DR® CHIPPER/SHREDDERS are also shredders, with 48 free-swinging hammers that pulverize weeds, prunings up to 1-1/2" thick, and garden refuse to create nutrient-rich mulch and compost for gardens and flower beds. An oversized hopper requires far less trimming than competitive machines and standard electric-starting makes for quick starts, every time.

PUT AN END TO UGLY BRUSH PILES WITH A DR® RAPID-FEED™ CHIPPER!

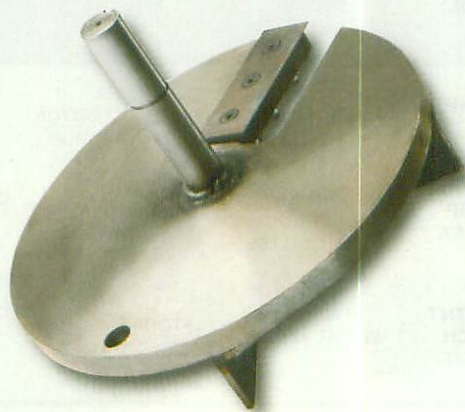

- Clear your property of unsightly brush piles
- Drop branches in, woodchip mulch comes out
- Handles tough material up to 5-1/2" thick

With a DR® RAPID-FEED™ CHIPPER you can chip faster and easier than ever before. Just drop a branch into the large hopper and let the machine go to work. Most branches are chipped without you having to push them through the machine. That saves you time and makes your work easier.

With a DR® RAPID-FEED™ CHIPPER you can turn brush-pile eyesores into landscaping gold. And have the property you've always dreamed of.

NEW! MASSIVE STEEL FLYWHEEL POWERS THROUGH TOUGH BRANCHES

Even the biggest hardwood branches won't bog down the 3-Point Hitch DR® RAPID-FEED™ CHIPPER. That's because the inertia created by the flywheel (up to 76.5 lbs.) lets the work go smoothly with less strain on the machine.

SOLID STEEL FLYWHEEL Cut from heavy steel that's 3/4" thick, using the latest in high-definition plasma-cutting technology. The result is a perfectly balanced flywheel that weighs up to 76.5 lbs. The massive size provides the inertia necessary to power through knotty, hardwood branches up to 5-1/2" thick.

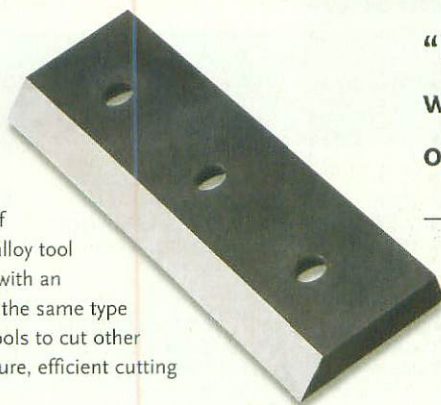

PROTECTED BY A 2-YEAR WARRANTY against defects in materials and workmanship (in residential use).

Harness the power of your tractor for extra-fast and easy wood chipping! The 3-Point Hitch model features a large vertically-oriented hopper that directs material into the chipper blade. Just drop a branch in the hopper and let it chip, while you grab another. Most material will self-feed!

**HARDENED TOOL-STEEL
CHIPPER KNIFE SLICES
BRANCHES AT AN AMAZING
40 BITES A SECOND!**

This is no ordinary knife. It's made of high-carbon/high-chromium forged alloy tool steel, making it exceptionally strong with an excellent edge-holding ability. This is the same type of steel used in industrial machine tools to cut other types of steel. Precision ground for sure, efficient cutting and long life.

"I can now do in 20 minutes what took hours to do with my old department store chipper."

— Randall Morgan, New Bern, TN

**DON'T WASTE TIME & MONEY ON
SMALL, UNDERPOWERED CHIPPERS.**

There are smaller, less expensive chippers available, but our testing shows they're at least 2-3 times slower than our DR® RAPID-FEED™ CHIPPERS. What's your time worth? The power and technology we put into each DR® RAPID-FEED™ CHIPPER will keep you working when other "bargain" brands get bogged down and clogged up.
