## TAKE BACK YOUR OVERGROWN PROPERTY WITH A DR® FIELD AND BRUSH MOWER!

- Cut thick field grass, brush, and 3" thick saplings
- Open up views, mow trails, clear underbrush from woodlots
- Big power and excellent traction get through rough terrain and up hills

For all-around brush clearing versatility, nothing beats our self-propelled walk-behind DR® FIELD and BRUSH MOWERS. The machine's narrow width gets you in between tightly spaced trees. Wide tires smooth out bumpy terrain and dig in when the going gets rough. High-torque engines provide the power to take out anything that grows — even if it's up to 3" thick. So clear a trail, take back a meadow, or thin an overgrown woodlot. With a self-propelled FIELD and BRUSH MOWER, the ways to improve your property are endless.

**THE NEW 12.5 PREMIER** is ideal for close quarters mowing. Take it into thick green grass or clear out tough weeds and woody brush.

**CHOOSE ONE OF OUR PRO OR PRO-XL** models for your toughest brush clearing tasks. Heavily built for mowing in rough conditions. Plus, these machines accept optional attachments for year-round use.

## SELF-PROPELLED Models

**FOUR SPEEDS TO MATCH THE TERRAIN** With multiple gears (three for the PREMIER model) you can choose the pace that's most comfortable for you and for the material you are cutting. Reverse gear gets you out of tight spots.

**QUICK-CHANGE ATTACHMENTS** Just pull one pin to remove the Brush Deck and slide on the Lawn Mower, Snow Thrower, Generator, Chipper, or the Grader/Snow Blade. (See page 4 to find out more. Attachments not available for PREMIER model.)

**PROTECTED BY A 2-YEAR WARRANTY** against defects in materials and workmanship (in residential use).

### Super-strong arched ramps make loading heavy equipment a breeze

These arched ramps are perfect for loading ATVs, lawn and garden tractors, push mowers and more. Arched design makes it easier to load low-clearance vehicles. Folding ramps: 1,250 lb. capacity (per pair), 89"l x 12"w, 38 lbs. Non-folding ramps: 1,500 lb. capacity (per pair), 89"l x 12"w, 34 lbs.

**#26749 Arched Aluminum Ramps \$199**

**#23183 Folding Aluminum Ramps \$199**

### Protect your investment from dust and dirt

This custom-fit cover is made of rugged 600 Denier polyester and has a canvas-like feel. Adjustable 1" straps with buckle.

**#15681 Protective Cover (Self-Propelled) \$79.95**

# MOW WHILE YOU RIDE, TO CLEAR ACRES OF OVERGROWN PROPERTY!

- Attaches to most any riding mower, utility tractor, ATV or UTV
- Mows 8-foot tall field grass, tough stubborn brush up to 2" thick
- Clears a 44" swath in a single pass

**1★ YEAR  
HANDS-ON™  
TRIAL**

Got big areas to clear? Want to mow in ride-on comfort? Look no further than the Tow-Behind DR® FIELD and BRUSH MOWER.

Cutting a 44"-wide swath, this rugged mower quickly reclaims meadows, overgrown pastures, fields, and more. Whether you choose the 13 HP PRO or the 17 HP PRO-XL model, the heavy-duty swinging blades have plenty of power to effortlessly slice through woody material up to 2" in diameter. A wide rear discharge chute prevents clogging, even in thick 8-foot high weeds and brush.

Hook up with a Tow-Behind model and enjoy the ride. It's the fast and fun way to take back your overgrown property.

**MADE  
in the  
USA**

## WELDED MOWING DECK IS SUPER STRONG

Made of 1/8"-thick steel (11-gauge) for maximum strength and longevity in rugged, field mowing conditions. The deck's funnel shape provides extra strength and rigidity, while creating a non-clogging discharge out the back.

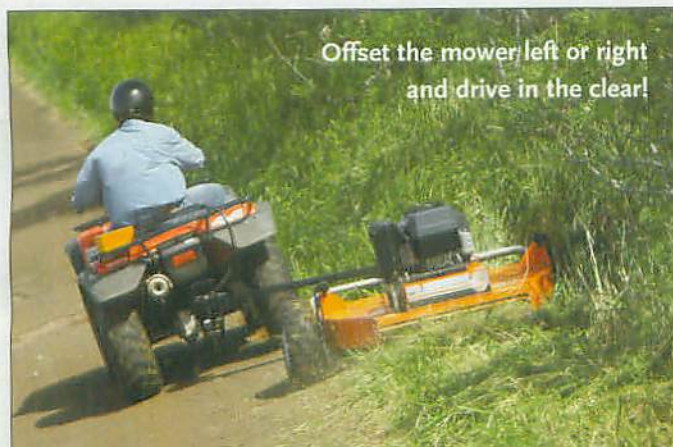

**NO HASSLE, STEP AND MOW™ HEIGHT ADJUSTMENT** Choose your mowing height — from 4" to 7-1/2" — with an easy foot-operated adjustment system.

**GET ATTACHED TO MOST ANY TOWING VEHICLE.** Our unique VERSA-HITCH™ makes it easy to hook up to towing vehicles with a pin hitch, regardless of the height of the vehicle hitch.

**PROTECTED BY A 2-YEAR WARRANTY** against defects in materials and workmanship (in residential use).

## TOW-BEHIND Models

Offset the mower left or right  
and drive in the clear!

### STAY SEATED. CONTROL IS AT YOUR FINGERTIPS.

A remote control allows you to start and stop the electric-start engine, operate the throttle, and engage and disengage the mower blades – all from your towing vehicle.

# REMOVE RUTS and POTHOLES from your gravel driveway!

- Tows behind a riding mower, UTV, ATV or tractor
- Loosens the hardest, most compacted materials
- Saves wear and tear on your car or truck

Finally — an easy, do-it-yourself way to transform your rough driveway into a smooth ride. The DR® POWER GRADER works fast to fill in potholes and ruts, shave off washboard, and grade your driveway smooth. With an adjustable grading action it can dig deeper with each pass, to loosen the hardest materials. The POWER GRADER takes material from the high spots of your driveway and fills in the low areas. And it leaves behind a driveway that's easier on you and your car or truck.

**"I do more with the DR Power Grader than I could ever do with my box blade."**

— Doug Abernathy, Williamstown, NC

**REPAIR DEEP RUTS** The POWER GRADER removes material from the high spots of your driveway and fills in the low areas. Even deep ruts and washouts are quickly repaired.

## MAKE PRECISE ADJUSTMENTS WITH THE WIRELESS REMOTE CONTROL

This controller transmits a radio signal to a receiver on the POWER GRADER's actuator, enabling you to adjust the height of the scarifying teeth with the touch of a button.

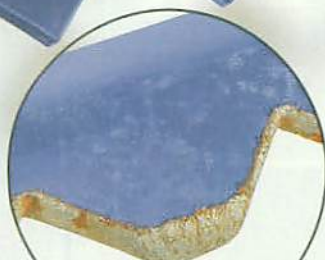

**DON'T WASTE MONEY  
ON "BARGAIN" GRADERS.**

**STAMPED STEEL IMITATORS  
DON'T HOLD UP TO THE TASK**

The steel teeth on other graders begin wearing immediately. Our carbide-tipped teeth are 10X harder and far more durable than steel.

**After  
just 9  
hours!**

Here are the "bargain brand" teeth after just 9 hours of grading.

**After  
100  
hours!**

Above are the carbide-tipped teeth from a DR® POWER GRADER that was tested in over 100 hours of grading. Other than some scratches to the paint, there are no signs of wear!

**48"-wide model (right)**

Ideal for smaller tow vehicles or sloped driveways.

**60"-wide model (not shown)**

Just right for wide or extra long driveways, large parking lots, private roads, horse arenas.

48"-wide model shown

**DESIGNED IN VERMONT BY DR**  
and manufactured in China to our specifications and under our supervision.

**Finish up the job right!**

The Drag Screen breaks up clumps of gravel and dirt for a perfect finish.

# TRIM PRECISELY. MOW WAIST-HIGH GRASS & WEEDS!

- 5x the power of hand-held trimmers
- Mow 3-foot weeds without strain
- Trim fast, with precision and ease

Hand-held string trimmers are no match for the powerful DR® TRIMMER/MOWER. With up to 8.25 ft/lbs of torque, this machine has the muscle to mow stubborn weeds without wrapping or tangling. Gliding along on its front-mounted Mow-Ball® Support, the TRIMMER/MOWER maneuvers easily, and quickly takes care of any trimming job. Precise control allows you to trim your entire property with beautiful results. And big, easy-rolling wheels support the machine...instead of your arms, neck and back.

**Mowing tough, woody material?**

See our **FIELD** and **BRUSH MOWERS** on pages 2-7.

**MOW WAIST-HIGH GRASS AND WEEDS!** The DR® TRIMMER/MOWER has the power to cut thick, wet material fast...without clogging or wrapping.
